## Solid Relationships bring Solid Business

How does it affect you when your people love to go the extra mile, are happy to be part of your business and contribute abundantly by being the best they can be?

And how does it affect you when productivity is too low, communication is tough and connections are weak, with high costs and major frustrations?

Let's achieve the very best by understanding what really makes all of us thrive and what turns us off. Let's build a culture based on fulfilling our basic human needs: **the need to feel SAFE, to feel SEEN and to feel SUPPORTED (Triple S)**. Of course always based on a clear result demand.

When we manifest a high Triple S score for all concerned, productivity will shoot up, job and customer satisfaction will further improve, and creativity, agility, innovative power and results will get a major boost.

Enjoy these Take Home Values from this event:

Find out why and how the Triple S Method (Safe, Seen & Supported) will create huge benefits by addressing and resolving issues that really matter.

Get effective tools to keep the communication lines open in times of challenges and (disruptive) change.

Experience how Triple S can and will strengthen relationships and performance at all ages and stages of life: at work, at home and for your own development.

We love to share our 75 years combined expertise in business and relationships with you? How about bringing this proven Triple S Method to your Chapter or other YPO event for even more success and significance.

Together with you we will of course make your event 100 % tailor-made, so you will feel fully Safe, Seen and Supported.

*"I loved the concrete Triple S tools Robert and Ingeborg gave us to understand and fulfill the deeper needs of the people I work with much better, with great benefits for my business and also private life"*

- **Manoj Chugani**, YPO Lagos, Nigeria
